STACK DEVELOPMENT WITH RUSH

RUSHTECH ENGINEERING.

Hello Candidate,

My name is Nii, I'm a Program Director for RushTech Engineering & Training Consult Prof-Cert in Cybersecurity/IT Auditor, Third Party Risk Management and IT Security

A few details of the program:

Schedule:

- 1 live session per week.
- 2-4 hours a week.
- 10 weeks Program starts January, 2024.
- 2 weeks for capstone project.

FAQS

How much does the program cost?

It is our mission to prepare our students for a career in IT Audit, IT Security and Cybersecurity. We believe affordability is the best way to help people break into the industry. The base tuition for the IT Audit, IT Security and Cybersecurity course is \$3,000.00

Do you offer a payment plan?

Yes, payment can be made in five installments of \$600. A \$600 security deposit is required prior to or on the first day of class to secure a slot.

Can I pay my tuition cost upfront?

Yes, you can. Please contact us at max20us@gmail.com

How long is the training?

The training is for 9 weeks

What days are the training offered?

The course is offered as follows:

- IT Audit - Saturday 6pm -10pm (EST) and review session 6pm-9pm (EST) on Sunday
- IT Security - Monday 6pm -9pm (EST) and review session 6pm-9pm (EST) on Tuesday
- Cybersecurity - Wednesday 6pm -9pm (EST) and review session 6pm-9pm (EST) Wednesday
- Governance Risk & Compliance (GRC) for Monday 6pm - 9pm

Time: Be sure to clear your schedule to attend the class

FAQS

Do you offer a refund?

Class payments are non-refundable and non-transferable, except when course is canceled by Rash Consulting which would result in a change in fees otherwise due.

What do I need for the course?

You will need a laptop. All other necessary materials and handouts will be provided during the training. It is not necessary to study in advance for this class. Training certificates will also be provided upon completion.

Do I need an IT background to succeed in the field?

No, you don't need an IT background to be successful, the course will provide the necessary skills to be successful in the field.

What level of education is needed to be successful in IT Audit?

At a minimum an associate degree is recommended with higher education greatly advised.

FAQS

Can I easily transition into IT Audit even if I have experience in a different industry?

The training will give you hands-on experience and the relevant skill sets to become successful in IT Audit, Information Security Analyst and Cybersecurity Analyst.
